Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE THREE MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1.

Applicant's arguments filed August 16, 2004 have been fully considered but they are not deemed to be persuasive.

2.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

3.

Claims 16-47 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Steward USP 5,916,541.

Applicant's arguments with respect to the claimed process being patentably distinct from that of the Stewart patent are not found to be persuasive. Applicant is arguing unexpected results attributable to the claimed two step process which is not clear to

the Examiner. The Examiner can see no patentable distinction between the compositions of the prior art and the instant application. The Examiner is not convinced by applicant's arguments that an improved product is produced by said claimed process. Additionally, the claimed process is also ambiguous with respect to what specific phase the inorganic sunscreen is added to. The instant method claims also specifies that said the emulsion is formed prior to the addition of the inorganic suncreening agent. Applicant has not shown that the claimed method is patentably distinct nor has applicant shown that the product produced by said method is different from that produced by the process of the prior art. Again, the Examiner is not convinced by the arguments presented by the applicant that said process is patentably distinct and that of the prior art. Additionally, the Examiner is also not convinced that even if said process is different from that of the Stewart patent that the resultant product is superior to that of the prior art process.

Information Disclosure Statement

4.

The information disclosure statement (IDS) submitted on September 17, 2001 was noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement and made it of record.

5.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the

advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
